Improved Swiss Giant Pansy

PANSIES

We specialize in Pansies, and have had many years' experience in growing them. Our Pansy Plants are unsurpassed, and will produce flowers not equalled by any other strain. The flowers of The Improved Swiss Giants are of enormous size, 3 inches and over in diameter. They are perfectly round with overlapping petals, borne on strong stalks well above the remarkably luxuriant foliage. Thick petals, of a rich velvety texture, give this strain the required substance so necessary to a perfect Pansy. The superb colors and color combinations are their distinctive feature.

*Blackmore and Langdon
Hybrid Delphinium*

Hybrid Delphinium

Delphiniums are among the most beautiful and most widely used perennials for garden display and cutting. The stateliness of their massive, colorful spikes is unequalled by any other flower. The Blackmore and Langdon strain of Hybrids is unquestionably the best obtainable. All shades of blue, from the fine, clear turquoise to the deep, dark blue are represented. And a large percentage are the favored doubles and semi-doubles. These Delphinium are perfectly hardy and bloom year after year. No garden is complete without a collection of these truly superb flowers.

*Mrs. Scott Elliott's
Long-spurred Columbine*

Long-Spurred Columbine

The Columbine produce graceful, spurred flowers on stems rising 2 feet or more above the beautifully divided foliage. The flowers range in color from pure white, through the delicate pastel shades to the deep yellows, reds, and blues. The Columbine are old-fashioned favorites and have reached the height of excellence in this super-select, long-spurred strain. These plants, though dainty in foliage and flower, are among the hardiest of perennials.
